

## A NEW AUTOMOBILE SERVICE IN DEHRADUN

**Autokompany**, an automobcare brand catering #PeaceOfMind delivered at your doorstep. The brand caters to its services in the major locations of Uttarakhand (Dehradun, Mussorie, Haridwar, Rishikesh). The First in Uttarakhand catering premium and luxury vehicles servicing and car cleaning. One can book a convenient time and location for getting their automobile, the much-needed care. Autokompany does not have a fixed shop, and it caters to the needs of their consumers with a customized approach and 100% automated process in terms of services. The brand is an initiative of Digifish3, a digital marketing agency catering to consumer needs since 6 years. The organization deals with products based on consumer behavior and therefore was a part of this initiative. The Uniqueness of Autokompany lies in their approach of dealing with the consumers and understanding their pain point of getting their luxury and premium vehicles serviced from the hands of reliable experts. The idea of catering their services in Dehradun was purely based on the inconvenience faced by people to take their luxury and premium vehicle outside to places like Karnal, Chandigarh for services. This took a lot of their time and also they had to bear a lot of hidden charges for labor, etc. Autokompany is a brand that caters to fixed rates, with no hidden charges or taxes on the amount displayed initially.

The brand has a unique service of mobile diagnostic for your car catering 100+ check points and showcasing the report to the users for knowing the current health of the car. The Diagnostic health is just not for the moment, but it is a long term health card for the consumer stored in their individual login ids created by autokompany. The dashboard for every consumer would cater to their diagnostic car health report, along with their service record. The service/cleaning of the car is performed in front of your eyes. One can work or chill at home with Netflix, and the car is serviced and cleaned in a day. The Organization holds 100% transparency and can be trusted with their experts. It is unique and caters a hassle free experience. The organizations values your time, and is surely a must try for periodic service and also caters to AMC for 500 and 1200 days. **A must try vehicle maintenance service @ your doorstep.**
